

Registration and abstract submission

Registration for the 10th annual INEBRIA Conference as well as callfor abstracts and workshops is open.

Please visit www.inebria.net for more information

The call will be open until **15th of May**, 2013.

Venue

The meeting will take place in the Angelicum Congress Centre, Largo Angelicum, 1.

It is Located in the very Centre of Rome, near to the Quirinale, Piazza Venezia, Via dei Fori Imperiali and the Colosseo.

The historical site known simply as the Angelicum in Rome is located in the precise geographical centre of the city and dates back to 1569. A truly historical Roman edifice, the building exhibits the priceless markings of some of the greatest masters of the latter part of the Renaissance, including Lorenzo Bernini, whose classic works can also be seen in Piazza Navona, Piazza Barberini and at the foot of the Spanish Steps; as well as Giacomo della Porta and Vincenzo della Greca.

Accommodation

You are responsible for booking your own hotel. Organizers have arranged a selling price with several hotels near the meeting venue. More information is available in the website.

Social programme

Organizers are planning a social dinner and a cultural and physical activity visit. Additional registration will be needed.

Conference aims and overview

The conference aims to:

- Underline the achievements after 10 years of work and review implementation strategies
- Promote an integrated implementation approach
- Focus on gender and vulnerable groups (teen-agers and the elderly)
- Enhance research on EIBI/SBI implementation as a public health tool
- Promote expansion of EIBI/SBI to other drugs
- Continue promoting the use of new technologies on the implementation of EIBI/SBI

The conference seeks to serve as a tool to stimulate international cooperation between INEBRIA researches and Italian practitioners and researchers hence the provision of English/Italian translation throughout the conferences.

Programme

Scientific programme

With this Conference we would like to stress the importance of intersectoral work and quality driven health policies. Translating research into everyday's work always remains an important aim to pursue.

The key note speakers should focus on quality assessment of BI and its integration in public services (health, social and more..).

A final version will be ready after evaluating the abstracts received. Preliminary by June 15th and final one by July 15th.

Pre-conferences:

XXIII National Scientific Meeting SIA, Società Italiana di Alcolologia

The Italian Society of Alcoholology will hold its XXIII National Meeting focusing on the burning issues in alcoholology in Rome. An update of the epidemiological and prevention landscape in Italy, therapeutic approaches and treatments, update of the scientific SIA Società Italiana di Alcolologia work in progress on EIBI Early Identification and Brief Intervention across the Italian Regions in primary health care settings and in workplaces will be debated. The full programme will be published on the SIA Società Italiana di Alcolologia webpage.

Conferenza Nazionale sull'Intervento Breve in Medicina Generale

Due to technical and organizative matters the meeting has been postponed
