Conference

HLP sent a proposal of tables and chairs based on extracted titles of presentations by Nicolas Barticevic. TG asks to be withdrawn as a chair. PW offers himself as alternative. Programm is not available on the website, we wait for news of Nicolas in this sense and opinion of OC about our proposal about tables and chairs. We will ask OC to avoid parallel sessions of eINEBRIA topic. Chairs also need abstracts of each session. All these informations are urgently required. TG will talk with Lidia Segura and Nicolas about these issues.

[updated by e-mail September 12th: two e-health sessions, chairs by Malu Formigoni and Leo Pas respectively]

Preconference

At this time there are only two people registered. LP will prepare an e-mail in order to send all members of INEBRIA

In the following 10 days we have to decide if we go ahead or we cancel the preconference (and it depends of number of registered and consensus with OC).

[updated by e-mail September 12th: 11 people registered]

TG propose to reduce the number of parallel morning sessions to three and those which are easy to prepare. LP is working on number 2 and 3. LP will coordinate this point with Heleen. We should also consider to reduce timetable and adjust only to the afternoon. We need also feedback from Nicolas about logistic issues and as well about feasibility of preconference. TG will coordinate with Lidia Segura and Nicolas.
