

## IMPLEMENTATION OUTCOMES IN ALCOHOL BRIEF INTERVENTION RESEARCH WORKSHOP

Hosted by the INEBRIA RMS-SIG

Anne H Berman, Amy O'Donnell, Zarnie Khadjesari,  
Magnus Johansson & Gillian Shorter

24<sup>th</sup> February 2021, 15-16.30 CET/GMT+1

Despite robust evidence for the effectiveness of alcohol brief interventions, delivery remains low in global health systems. As such, recent research in this field has focused increasingly on the challenge of how best to encourage their delivery in routine clinical practice. As with other intervention fields, however, the outcomes used to assess these implementation efforts are currently defined in different ways and assessed by different measures. To allow us to synthesize and evaluate this evidence, there is a need to identify which implementation outcome measures are most appropriate for this field. Join this INEBRIA Implementation Outcomes in Alcohol Brief Intervention Research Workshop to hear more about ongoing efforts in this area and to learn how you can get involved in planned evidence reviews to move the field forward.

Time	Item	Presenter
15:00 – 15:05	Welcome and introductions	<b>Assoc. Prof. Anne Berman</b> <i>Karolinska Institutet</i>
15:05 – 15:15	Implementation outcomes: What are they and why are they important?	<b>Dr Zarnie Khadjesari</b> <i>University of East Anglia</i>
15:15 – 15:25	Use of implementation outcomes in alcohol brief intervention research	<b>Dr Amy O'Donnell</b> <i>Newcastle University</i>
15:25 – 15:30	Outline of proposed implementation outcome reviews	<b>Dr Amy O'Donnell</b> <i>Newcastle University</i>
15:30 – 15:50	Small facilitated group discussions	All
15:50 – 16:05	Feedback from small groups	All
16:05 – 16:20	Planning the review(s) and task allocation	<b>Dr Gillian Shorter</b> <i>Queen's University Belfast</i>
16:20 – 16:30	Wrap-up and Next steps	<b>Assoc. Prof. Anne Berman</b> <i>Karolinska Institutet + All</i>
